

STEAM EVENTS

HANDS-ON LEARNING FOR FAMILIES

Bring hands-on STEAM learning to your community with engaging, ready-to-run experiences designed for families and students in grades K–12. Whether part of a larger event or a standalone activity, our programs make learning fun, meaningful, and accessible. Partner with BHSSC to make STEAM a shared family experience.

WHY PARTNER ON STEAM EVENTS?

These events give families a chance to learn together while students build essential skills in coding, engineering, creativity, problem-solving, and collaboration.

For schools, libraries, and community groups, hosting a STEAM event is a powerful way to promote learning, strengthen family engagement, and elevate your community gathering. With BHSSC handling all the logistics, it's easy to deliver an experience that's memorable, educational, and fun.

IN-PERSON • EVENT BASED • GRADES K-12

STEAM EVENTS ARE PERFECT FOR:

- School-hosted family nights
- Community programs and events
- Partnerships with libraries, youth organizations, science events, and more

WHAT'S INCLUDED:

-  SKILLED FACILITATORS TO GUIDE HANDS-ON LEARNING
